Required Texts

- Field, A. (2009) *Discovering statistics using SPSS* (3rd ed.). London: Sage. There are older versions of this around, but the new version does a lot more. Visit his website for much supplemental materials.
- Howell, D. C. (2012). *Statistical methods for psychology* (8th ed.). Belmont, CA: Cengage Wadsworth. (see me if you are interested in using an earlier edition)
- Additional required readings will be assigned in class.
- You'll need a basic calculator.

Prerequisites

material beforehand is essential; it will make the material in lectures easier to understand and will ensure the

confusing. Your class participation will be your opportunity not only to ask questions but to demonstrate
