### **Course Goals**

By the end of the semester, it is expected that you will achieve the following goals:

- An awareness of ethical considerations regarding the practice and content of psychotherapy

- An understanding of the importance of diversity and individual differences when working with clients

- The ability to develop and present thorough case conceptualizations that cag with clients

1. Participation, in particular participation in the form of group supervision,
2. Ongoing case presentations, in particular those that demonstrate integration of practicum material, in both group and individual supervision, and
3. A formal case presentation at the end of the semester. This case presentation will provide students with the opportunity to demonstrate their ability to integrate course material, as well as their understanding of empirically supported interventions.

This practicum will be graded on a pass/fa
