Course Website and Computer Skills Requirements

The course website is on Blackboard (http://www.dl.utoledo.edu) and contains assignment information, course content, grades, etc. All students should be comfortable and able to navigate on-line. If you do not have strong computer skills, I do not recommend taking this course. A basic level of computer skills is a prerequisite and I will not be teaching these skills in the course. If you have never taken an on-line course before I highly recommend visiting http://www.dl.utoledo.edu/help_desk/help.htm to learn how to work with the on-line course system.

Technical Assistance: I am not a computer expert. Therefore, if you are having technical problems, please contact the Distance Learning Department at 419-530-8835 or toll free at 866-utoledo (866-886-5336) or by email at UTDL@utoledo.edu. Please contact them when problems arise they want to help.

Notification of Technical Problems: If you are having problems with your computer and you are unable to notify me of this event by email, please contact me by phone. My contact numbers are listed on the top of our syllabus. Technical problems with your computer are not a legitimate reason for failing to complete assignments or exams by posted deadlines. There are many computer options available to you, such as the many University of Toledo computer labs and the computers at public libraries. To find out the hours of the University of Toledo computer labs, you can call this number: 419-530-4636. Each student is responsible for finding their own alternative methods or locations to complete assignments by the given deadlines.

Lecture Content

broken up into folders based on the unit/week. Each week/unit will have various materials that are relevant to the exam for that week. Typically these will involve PowerPoint lecture slide files, articles, and video links. Naturally, there will be a great deal of overlap between the text and this other material, but there will also be material unique to each. All of this material is important for exams.

Course Policies

Absenteeism

This is a distance learning class, which means that the structure and timing are unconventional. Content will nd students are responsible for accessing and consuming the relevant content as it becomes available prior to the exam on such content. If you have an illness or other universityappropriate excuse that interferes with your ability to meet deadlines in this class, notify me ASAP and provide appropriate documentation. Such events may necessitate your dropping the course, particularly given the nature of the class.

<u>Email</u>

I will respond to student email daily. Due to the continuing COVID-19 situation, email is the best way to reach me and I will check this regularly. I am also happy to set up virtual office hours to speak with you (see above).

Course Materials

As indicated above, you will take 6 exams throughout the semester. When it comes to material for each of the 6 units (e.g., lectures, articles, chapter readings), I will release each set of materials for a particular exam one at a time just like the exams (see above). This is to allow you to pace yourself throughout the course and permit you to create habits of consuming the material and demonstrating your knowledge. The content is released first and then the exam is released later during the unit period.

Course Readings

Each unit you will have selected chapters from your textbook as well as 1-2 journal articles to read. The schedule below lists the readings (textbook chapters and articles) assigned for the given week. The selected journal
