NSSE 2024 Administration Summary
The University of Toledo

This report provides an overview of your NSSE administration, including details about your population and sample, response rates, representativeness of your respondents, and survey customization choices. This information can be useful for assessing data quality, maintaining a record of survey choices, and planning future NSSE administrations.

Population and Respondents

The table below reports your institution's population sizes, how many students were sampled (whether census-administered or randomly selected), and how many completed the survey.

Survey sampling and completions	:]fghnƳUf	Senior
Submitted population	2,994	3,419
Counts from the original population file.		
Adjusted population	2,994	3,418
Adjusted for ineligible students and undeliverables.		
Survey sample	2,994	3,418
Number of census or randomly sampled students invited to complete the survey. Targeted, experimental, and locally administered samples are not included.		
Total respondents	722	880
Full completions	516	742
Number who submitted demographic items and (if applicable) Topical Module sets.		
Partial completions	206	138
Number who completed part of the survey but stopped before submitting demographic items and (if applicable) Topical Modules.

Population file options

Did you include an oversample?		3MCID 34›Ɓsn2ee?
Asked NSSE to survey other students in addition to the standard first-year and senior samples.		

Response Rates

The table below summarizes response rates for your institution and your selected comparison groups. For more information see BGG9ïgˉ Response Rate FAQ (https://go.iu.edu/4qlk). Comparison group response rates were computed at the institution level (i.e., they do not reflect student-level aggregate results).

.	UToledo	Great Lakes Public	Carnegie Class	NSSE 2023 & 2024
First-year	24%	21%	21%	25%
Senior	26%	20%	19%	24%

Representativeness

The table below details variables submitted in your population file. NSSE reports use weights based on institution-reported sex and enrollment status (full- or part-time) so that results better reflect the population with respect to these categories. Institutions may also submit race/ethnicity (based on IPEDS categories) and age (birthyear) which, while not used for weights, may also help gauge the representation of these groups in your data.
